Course Reference	C734
Training Provider	Tertiary Infotech Academy Pte Ltd (UEN 201200696W)
Duration	2 days · 7.5 instructional hours per day (15 hours)
Daily Timing	9:30 am – 6:30 pm (1-hour lunch; tea breaks within training time)
Mode	Instructor-led, hands-on practical labs
Trainer	Dr. Alfred Ang

Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Explain what Copilot for Power BI and Microsoft Fabric are, and confirm the licensing and settings needed to enable Copilot.
- LO2: Connect and prepare data so that Copilot can interpret it, and write effective prompts in Power BI Desktop and the Service.
- LO3: Generate complete report pages and visuals from prompts, then refine their type, layout and formatting with Copilot.
- LO4: Add narrative visuals and AI summaries, and apply storytelling and formatting best practice to a report.
- LO5: Generate and explain DAX measures with Copilot to answer business questions.
- LO6: Set up Q&A and natural-language queries so users can ask questions of the data in plain English.
- LO7: Summarise insights, answer business questions, and publish and share an AI-assisted report and dashboard.

Learning Reinforcement

- Every topic is followed by hands-on labs that learners complete on their own machine.
- Each lab ends with a 'Test it' verification step so learners can confirm their own progress.
- The trainer circulates during lab time to give individual feedback and unblock learners.
- Each topic closes with a recap mapped back to the course learning outcomes.
